DoD DTP-CCS MEMORANDUM FOR DISTRIBUTION

DATE: MAY 2000

SUBJECT: DTP-CCS RELEASE 5.0b VERSION DESCRIPTION DOCUMENT (VDD)

Note: This VDD release will be distributed to all DoD DTP-CCS, Tri Service, collection sites specified as Beta Testing sites.

Enclosed: VDD for the DTP-CCS version 5.0b release.
Beta Test Objectives
Problem Reporting Procedures
Points of Contact for DTP-CCS

Beta Test Objectives

The Beta Test software is not to be used in place of current systems. This software is still in a testing state, and is NOT ready for usage. All reports or other products that are created by using this software should be discarded.

The objectives for Beta testing are:

- 1) Verify functionality of screens.
Go through each screen and each control on the screens and verify that the screen/control performs the function specified.
- 2) Identify "Bugs."
Go through each screen and document each time that a screen or control did not perform the documented functionality. Describe the problem, how you created the problem, and whether or not you were able to re-create the problem.
- 3) Identify areas for improvement
As you go through the screens, if you have a suggestion on how to make something easier to use, or more readable for you, document it and let us know.
- 4) Evaluate ease of use
For each screen, tell us how user-friendly you found the screen. Did it give you access to all the things you needed? Did it perform to your expectations? Why or Why Not?
- 5) Evaluate software development direction
This is an overall evaluation. Does the application give you what you need? Are there other things you would like to see more often (ex. more tab controls etc.)? Are we using something too much (ex. too many edit boxes)?

Testing Procedures

Uninstall any previous version of the 5.0 software.

Download 5.0b software from <http://www.ftdtl.amedd.army.mil/dtphome>

Download documentation from the website.

Review ALL documentation prior to starting testing.

Install software on desired system.

Setup software. (see users guide)

Perform testing. (products created with the beta software are not to be used in real urinalysis testing)

Report Problems, Discrepancies, and Concerns.

Uninstall Software.

Problem Reporting Procedures

When reporting a problem, we will need the following information:

- Operating System

- Description of Problem

- Steps to Reproduce the Problem

- Description of circumstances under which the Problem occurs

- All error messages that the system shows to you

- Your name, phone number, and e-mail address

There are several methods that you can use for reporting problems.

1) Web Site

Simply go to <http://www.ftdtl.amedd.army.mil/dtphome/bugrep.htm> and fill out the online form. Be sure to provide the contact information so that we can contact you for more details if needed.

2) E-mail

Send e-mail to Bill.Hunsicker@cen.amedd.army.mil and Jerold.LeMar@cen.amedd.army.mil with the information required.

3) Mail

Type all the required information into a document, and when you are done evaluating the software, print out the document, and send it to the address listed in Points of Contact for DTP-CCS.

4) Phone

Give us a call at the numbers listed in Points of Contact for DTP-CSS, and speak to us. Try to use this option as a last resort as it takes us away from other tasks that we need to be performing.

Evaluation Reporting Procedures

When you have completed your evaluation, collect all documentation, and write an evaluation of the software stating the things you liked and the things that you did not like. Submit this to us via e-mail, or normal mail NLT 28 Jan 2000.

Points of Contact for DTP-CCS

Project/Technical Manager Pat Cochren (DSN) 471-9733, (COMM) 210-221-9733

After 13 Jan (DSN) 471-2345, (COMM) 210-637-2345
(EMAIL) Pat.Cochren@cen.amedd.army.mil

Software Programming Bill Hunsicker (DSN) 471-9733, (COMM) 210-221-9733
After 13 Jan (DSN) 471-2346, (COMM) 210-637-2346
(EMAIL) Bill.Hunsicker@CEN.AMEDD.ARMY.MIL

Software Programming Curt LeMar (DSN) 471-9733, (COMM) 210-221-9733
After 13 Jan (DSN) 471-2350, (COMM) 210-637-2350
